

從2020年初開始，中國受疫情影響，無論在工作就業，民生經濟，學習方式等都有許多變化。植苗地區因地處偏遠山區，人口亦較稀少，病毒感染並不多，但對於一些在縣城工作的父母卻會有面臨被解雇，出現經濟的困難。兒童上學也一度中斷。感謝神，中國疫情漸控制，願神恩待每個家庭，幫助這些沒有工作的父母能重新出發，一切能逐漸回到正常。

藍神管

藍神管

今年初發生疫情，縣城的工廠與商店全都關閉了，頓時生活上就沒有收入了，為了減少生活開支，他們一家子只好回到農村，孩子們也在家幫爸媽幹農活。如今疫情已經穩定，也再次回到縣城，恢復以前的生活型態與學校生活了！

以下是兩個植苗家庭在疫情期間的狀況：

（一）藍神管同學從小就受到植苗事工的關懷，現就讀小學四年級，父母都在縣城打工，他們不想讓孩子的童年少了父母的愛，一年多以前，便將小孩們接到縣城同住。

藍神管同學很懂事也很乖，放學之後去接弟弟妹妹回家，學校的成績也在中上，回家之後會自動自發做學校作業，讓父母省心不少。平常也會與弟弟妹妹在門前廣場玩遊戲，簡單的角色扮演就讓小朋友玩得不亦樂乎。

藍稱謝

藍稱謝

（二）藍小謝同學小時候住在山區，初中時搬到縣城，現就讀高一，爸爸是傳道人，在縣城教堂講道，媽媽在牧養另一個小教會。父母在家中帶著孩子們做家庭聚會，每天要求孩子至少讀一章聖經，也因此全家生活上充滿了神的祝福，在課業上也不用父母擔心，真是感謝神！

疫情期間，小謝同學很認真地完成網上每一項作業，有時需要幫父母做農活，一周上傳一次作業給老師批改。疫情在小謝的家鄉並沒有造成太大的影響，生活也逐漸回復到往常的樣子，願上帝祝福著她們一家。

When the pandemic broke out, all the factories and shops in the city were closed. Their income suddenly disappeared. To save money, the family moved back to the village. The children helped around the house and in the field. Now when the

Since the early 2020, China has been affected

pandemic has stabilized, they move back to the city resuming their city and school life as before.

by the Covid-19 pandemic in employment, economy, and education. In the Seedling areas because of their remoteness, and sparse population, the rate of virus infections is less. However, the parents that work in the city have a higher chance of unemployment and financial difficulties. The education of children is interrupted for a while. Thank God, the pandemic in China is slowly under control. May our Lord have mercy on all the families, helping the parents to start afresh, and returning life to normal.

2. Lan Xiaoxie lives on the mountain when he is a child, and moves to the city in Junior High, now he is in the first year of High school. His father is a minister in a city church, mother also shepherds another small church. The parents lead family worship with him, and requiring him to read at least a chapter of the Bible every day. The family is full of God's blessings. It is also thankful that the parents do not have to worry about his schoolwork.

Below are the lives of two Seedling families during the pandemic:

During the pandemic, X. Lan diligently completed all the course works on the internet, and uploaded his homework to his teacher once a week. He sometime helps his parents with field work. The pandemic does not affect Lan's hometown that much. Life also returns to normal gradually. May our Lord bless this family.

1. Lan Shenguan has been supported by the Seedling Project since very young, now he is in 4th grade. His parents work in the city. They do not want their children's childhood to be deprived of parental love, so the children were moved to the city to live with them a year ago.

S. Lan is well behaved. His school grades are above average. After school, he will pick up his brother and sister home, and will finish his home work by himself saving his parents a lot of worry. Usually he will play games with his siblings in front of their house.
