

I look forward to seeing you again, children

Due to the covid pandemic, from 2020, our co-workers cannot enter China. The co-workers in China also care for the Seedling families and the distribution of the education subsidies so that the ministry will not be interrupted. However, one of the Seedling areas is not suitable for gathering children for summer camp, and the camp has been canceled. Please pray for all the Seedling areas for their work to run smoothly and to wait until the end of the year to see if we can continue to support the children and families in need. We look forward to receiving the children's Christmas letters to share with the sponsors.

Thank God we have sponsored more than 3100 children in our 16 years of Seedling Ministry. Many of them have completed their high school education and some have entered college, technical college, or seminary. This summer there are 44 students who completed high school. We have conveyed this good news to their sponsors. At the same time, we invited them to continue to support young and new children so that they will experience God's love.

It has been two and a half years since the pandemic. Thank God all the Seedling children and their families have not suffered

from it, but they learned a lot about healthy living and it is a blessing in disguise. The only regret is the short-term mission teams cannot organize camps in China because of government restrictions that the children cannot enjoy an unforgettable experience.

The help of our Seedling Ministry is limited, but the continued support of many sponsors is like a beacon of light that gives hope to the children for a better future and receiving the love of God.

May we be able to reunite with our children in the near future.
